Community Location TBD

**6th Annual Event 800+
Adults and youth**

Think you have what it takes to stretch your dollar to cover ALL your needs and wants?

Take the Y-Fi Challenge: Put your money skills to the test

Join us for this one hour interactive, reality simulation. During the event you will...

- Get your career, find out just how much the job pays, and stretch your paycheck to cover all your expenses.
- Go “shopping” and see if you can stick to your budget as you make money choices about housing, utilities, transportation, food, clothing and much, much more!
- Watch out for your “Lucky or Unlucky Chance” card to see if you can stay on track. Your luck could be good, or it could throw a wrench in your monthly budget!

The event is perfect for youth from 12-20 years old. Younger students will gain an appreciation of the tough financial choices adults have to make each day. Older students will learn how career, education and spending choices can have a direct impact on their success. Families together will learn how to support each other in making earning, spending and saving choices.

For more information about Y-Fi and how your organization can be involved, contact us at info@makingchangecenter.org or 443-832-3680.

Special Acknowledgement: The event simulation is fueled by portions of Junior Achievement’s nationally acclaimed JA Finance Park program.
